Vennard's EVERGREENS

WE OFFER ONE OF THE FINEST ASSORTMENTS OF EVERGREENS GROWN IN THE SIOUX CITY TERRITORY. An Exclusive Evergreen Nursery—started as a hobby—that developed into a business. Our Evergreens are transplanted from time to time to develope the necessary root system, and are pruned and sheared regularly to give them the desired shape. We invite you to visit our fields and tag your selection of Evergreens. We have thousands of Evergreens to select from. We usually give two or more potted trees to every customer who buys Evergreens. Many people want to plant a few small Evergreens to watch them grow. We have many thousands growing from seed.

Evergreen Windbreaks

You will find varieties and prices listed on Page 4

Why Not Plant a Living Christmas Tree?

Catalog "A"—1943

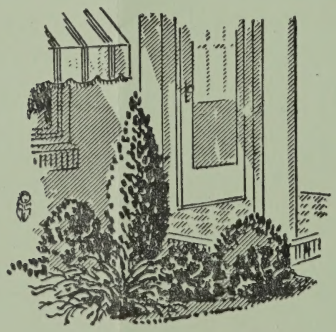
WHY WE GRAFT EVERGREENS

Evergreens, like other varieties of trees, are being improved and we have devoted a number of years producing trees that are outstanding in color and habits of growth. To obtain these results we graft from trees that we have carefully selected and held under observation long enough to prove their superior qualities. Evergreens are often planted in pairs and in many cases one or more pairs are desired on a landscape planting. If grafted types are planted in pairs or in any amount of the same variety they will always grow and look alike. We can assure you that no finer grafted evergreens are produced than we offer in this catalog. The price of grafted evergreens is slightly higher than common seedling types as the cost of growing them is more.

Most of the grafted trees will not reproduce themselves from seed and to secure uniform trees for "pairs" or narrow growing types for special limited areas, it is necessary to produce them by graftage.

.. *TERMS* ..

Unless otherwise arranged, planting jobs or trees delivered at nursery; our terms are cash on delivery. Usual terms to the trade.



.. *OUR GUARANTEE* ..

On landscape work, where we are asked to plant our evergreens, we add 20% to the prices of the trees (where four or more are planted) which covers planting service, and guarantees the trees to grow. Guarantee contemplates one replacement if a tree does not make proper growth, within a reasonable time.

JUNIPER

B. & B.

The most popular and hardy evergreens in the Middle West are the various types of juniper. In form they vary from those growing flat on the ground to those growing 80 to 100 feet high.

PFITZER JUNIPER (J. Chinensis Pfitzeriana)

Very hardy, has low spreading branches with gray-green foliage. Well known.

15 to 18 inches	2.00
18 to 24 inches	2.50
2 to 2½ feet	3.50
2½ to 3 feet	4.50
3 to 4 feet	6.50

SAVIN JUNIPER (J. Sabina)

Low-spreading branches with dark green foliage. Ideal for foundation plantings

12 to 15 inches	1.50
15 to 18 inches	2.00
18 to 24 inches	2.50
2 to 2½ feet	3.50
3 to 4 feet	6.00

VON EHRON JUNIPER.—Belongs to the Savin family. An extremely rapid grower clothed with dark green foliage. Mny nurserymen consider it better than Savin.

12 to 15 inches	1.50	2 to 2½ feet	4.00
12 to 18 inches	2.25	2½ to 3 feet	5.00
18 to 24 inches	3.00	3 to 3½ feet	6.50

ANDORA JUNIPER (J. Communis Depressa Plumosa)

Fast-growing dwarf type, foliage silvery green, turning to a purple color in winter.

15 to 18 inches	1.50
18 to 24 inches	2.50
2 to 2½ feet	3.00
3 to 4 feet	4.00
4 to 5 feet	6.00

SCOPULORUM, Colorado Silver Juniper, 25-30 ft.—Silver foliage and close symmetrical upright growth. Thrives in hot, dry weather, when the color is the brightest. Very hardy. Grown from seed.

18 o 24 inches	2.75	3½ to 4 feet	5.50
2 to 2½ feet	3.50	4 to 4½ feet	6.50
2½ to 3 feet	4.00	4½ to 5 feet	8.00
3 to 3½ feet	4.50	5 to 5½ feet	9.50

RED CEDAR (J. Virginiana)

An attractive green foliaged tree, very hardy. Can be sheared to any shape, those below are rimmed to pyramids.

3 to 4 feet	3.00
4 to 5 feet	4.00
5 to 6 feet	5.00

GRAFTED EVERGREENS

We grow the following varieties of evergreens by grafting, and can supply many of them in any size up to six feet.

Juniper Hill's Silver Cedar
Juniper Hill's Moonlight
Juniper Hill's Dundee Cedar
Juniper Chandler Silver
Juniper Chandler Mission
Juniper Silver Queen
Juniper Sutherland
Juniper Cannarti
Juniper Pyramidal
Juniper Chandler's Green Cedar
Juniper Pathfinder
Juniper Weiri
Juniper Welchi
Juniper Fulgen
Juniper Funalis
Juniper Silver Beauty
Juniper Gordon
Juniper Silver Glow
Juniper Sneedi

PRICES on PATHFINDER, SILVER BEAUTY and WELCHI JUNIPERS and OTHER GRAFTED CEDARS:

2-2½ ft.	2½-3 ft.	3-3½ ft.	3½-4 ft.	4-4½ ft.	4½-5 ft.	5-5½ ft.	5½-6 ft.
$5.00	**$5.50**	**$6.50**	**$7.50**	**$9.00**	**$10.00**	**$11.00**	**$12.00**

We grow many of the above varieties in "Globe" or "Ball" shaped plants for places where a tall tree is not desirable.

Prices: 15-18 inch, **$3.00;** 18-24 inch, **$4.00**

We also have hundreds of Globes growing from seedling trees at about the same prices.

BARE ROOTED EVERGREENS FOR WINDBREAKS

KEY: TT—Twice transplanted.
KEY: T—Once transplanted.
30 or more, at the 100 price.

CEDARS

	Per 10	Per 100

Spruce Colorado Blue, 6-9 inches, T	**1.65**	**3.50**	**6.75**	**12.80**

Add 10% to the total amount of the above evergreens if you want them shipped via mail. Otherwise they will be shipped the best and cheapest way with carrier charges collect.

SPRUCE

BLACK HILLS SPRUCE (Picea Canadensis Albertiana)

Symmetrical, compact and bushy, in our opinion one of the best of the spruces.

15 to 18 inches	2.00
18 to 24 inches	2.50
2 to 2½ feet	3.25
2½ to 3 feet	4.50
3 to 3½ feet	5.25

COLORADO GREEN SPRUCE (Picea Pungens)

Similar to Black Hills Spruce

15 to 18 inches	2.00
18 to 24 inches	2.50
2 to 2½ feet	1.00
2½ to 3 feet	1.75

COLORADO BLUE SPRUCE SHINERS

(Picea Pungens Glauca)

Very attractive tree with silver blue foliage.

15 to 18 inches	3.50
18 to 24 inches	5.00
2 to 2½ feet	6.00
2½ to 3 feet	7.00
3 to 4 feet	8.50

MUGHO PINE (Pinus Montana Mughus)

A dwarf, compact, round headed pine, has deep green foliage

8 to 12 inches	1.50
12 to 15 inches	2.00
15 to 18 inches	3.00

FIR

CONCOLOR FIR

Has silvery toned foliage, dull pointed needles, soft to the touch. Grows compact and symmetrical, making a very fine tree for the yard. Is also planted for windbreak protection. Will grow 6 to 12 inches a year when established. Ultimate height 50 to 60 feet. Roots deep where soil conditions permit. Needs little pruning, if any.

18 to 24 inches	3.50
2 to 2½ feet	4.50
2½ to 3 feet	5.50
4 to 5 feet	6.50
4 to 5 feet	8.00

GLADIOLUS BULBS

It is our aim to grow only those varieties that are strong growers, and that propagate well. Each year we try a few new varieties, but in many cases have to discard them for some good reason. The varieties we offer are well established leaders, and our bulbs are strong and healthy. Many people believe that a huge three-inch bulb must necessarily produce a huge plant. This is not always true. We prefer bulbs one inch to an inch and a quarter in size for growing the best blooms. Never buy large (old) bulbs just because they are large.

We offer the following varieties, in lots of ten or 100, at the prices that follow:

Size	Large	Medium	Small	Bulblets
Per 10	.30	.20	.15	Per 100
Per 100	2.00	1.50	1.00	20c

APRICOT GLOW, Apricot Buff (large only)
GOLDEN CUP, Nice Yellow
JONQUIL, Deep Yellow (large only)
MARGARET FULTON, Faultless, Salmon
KASSEL, Rich Scarlet
QUEEN OF BREMEN, Decorative Lavender (Large Only)
PEGGY LOU, Very Large, Deep Pink
PICARDY, Most Popular Salmon Pink
RED LORY, Fine Red with Blotch
WASAGA, Smooth Buff
MAID OF ORLEANS, Best White
EARLY DAWN, Rich Salmon Pink

(For bulblets per quart or peck—write us)

The following will be sold at slightly higher prices, in most cases being new and not so common:

Size	Large	Medium	Small	Bulblets
Per 10	.40	.30	.20	Per 100
Per 100	3.00	2.00	1.50	.30

BAGDAD, Large Grey Smokey (large only)
BEACON, Popular Scarlet, Yellow Blotch
HILDRED, Fine New Lavender
IRAK, Grey Smokey
LEONA, Fine Dark Rose
PELEGRINA, Fine Violet Blue
REWI FALLU, Finest Black Red
ROSA VAN LIMA, Light Rose, very fine (large only)
VAGABOND PRINCE, Fine Dark Brown Smokey

We grow the following in smaller quantities, but can furnish in the sizes listed below:

NAME	Per 10	Lge.	Med.	Sm.	Bts.

NO ORDER FILLED FOR LESS THAN $1.00

TREATMENT OF BULBS

Regardless of where you purchase bulbs, never plant them without disinfecting treatment. Thrip (a tiny insect) is very prevalent throughout the country and an over-night dip in some solution will help to control them. We use Lysol, one ounce to three gallons of water, which generally destroys all insects and eggs. The bulbs can be planted wet after soaking, and you may be entirely free from these pests. However, we do recommend weekly spraying throughout the summer. The thrip insect has been very injurious over the entire country, and we urge you to dip your bulbs, no matter where you purchase them. Plant large bulbs five or six inches deep, medium at least four inches, small 3 inches, and bulblets 2 inches deep. Dig in the fall, after a frost, and store in cool, dry place, where air can circulate. They cannot stand freezing.
